Mobile: +919390086532 | Email: rohithvaddepally4@gmail.com | Place: Hyderabad

PROFILE SUMMARY

DevOps Engineer with 2.5 years of experience supporting cloud (GCP, AWS) and on-premises infrastructure in 24x7 production environments. Hands-on experience in CI/CD automation, Kubernetes-based deployments, cloud infrastructure, and healthcare platforms. Strong collaborator with development, QA, and mobile teams, focused on building secure, reliable, and automated delivery pipelines.

SKILL SUMMARY

Languages: Python, Java, TypeScript, Node.js, React

Frameworks: FastAPI

Cloud & DevOps: AWS, GCP, Docker, Kubernetes (K8s/K3s), Helm, Terraform, Jenkins, GitHub Actions, CI/CD, NGINX, Traefik, Shell Scripting

Databases: PostgreSQL, MySQL, MongoDB, Redis, Google Cloud Datastore

Security: IAM, Keycloak, Auth0, SSL/TLS, Secure Ingress

Monitoring & Security: Prometheus, Grafana, Trivy

Architecture: Microservices, REST APIs, On-Prem Deployments, Air-Gapped Environments

Tools: Git, GitHub, Jira, Maven, NPM, Agile

Operating Systems: Linux, Windows, macOS

EXPERIENCE SUMMARY

DevOps Engineer | Elatecare Inc

Healthcare & AI Platforms

Feb 2024 – Present | Hyderabad

- Managed and deployed microservices across AWS, GCP, and on-premises environments (Dev, QA, Staging, Production), ensuring reliable production releases and high availability.
- Built and maintained CI/CD pipelines using GitHub Actions, Jenkins, Maven, and Shell Scripting, improving deployment speed and release consistency.
- Automated QA validation by integrating Java, Selenium, and Maven test suites into CI/CD pipelines.
- Deployed and managed applications using Docker, Kubernetes (K8s/K3s), and Helm across AWS, GCP, and air-gapped on-prem environments.
- Configured NGINX, Traefik, Ingress, SSL/TLS, Keycloak, and Auth0 for secure routing and authentication.
- Implemented monitoring using Prometheus, Grafana, GCP Logging, and Monitoring.
- Supported HL7v2 integrations and GCP Pub/Sub workflows.
- Administered PostgreSQL, MySQL, MongoDB, Redis, and Google Cloud Datastore.
- Coordinated web and Android releases with Development, QA, and Mobile teams.
- Supported AI-powered healthcare and voice platforms in production across AWS, GCP, and on-prem infrastructure.

DOMAIN EXPERTISE

- Critical Care Management (CCM)
- Sofiya – AI Virtual Nurse
- Actyro – AI Voice Testing Platform

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

CDU, Warangal | 2019 – 2023
